AsTeRICS Web
& eLearning

Objectives

■ Objectives

- Implement international teaching setup for students in Assistive Technology (AT) and Smart Homes (SH)
- Improve attractivity for incoming students
- Improve accessibility of course contents

■ Target group: People being „less mobile“ due to

- Job
- Family
- Disability

Martin Deinhofer,
Alija Sabic

Project Topic 3: Design and implementation of alternative input device

Subtask1: PCB design and factoring

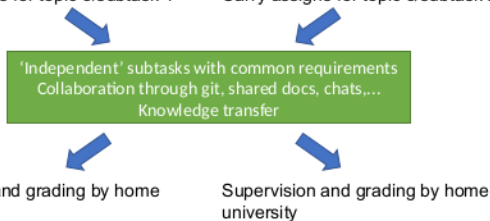

Subtask2: Case design and 3D printing

Partner 1

Martin assigns for topic 3/subtask 1

Partner 2

Carry assigns for topic 3/subtask 2

Supervision and grading by home university

Supervision and grading by home university

Figure 13: Workflow - Example

Translation & Conversion

- Translation of learning material to English (3-5 courses)
- Conversion of learning material to accessible format (3-5 courses)
- Provide templates for latex, pdf, pptx,...?
- Improve accessibility of moodle?
- Training of teaching stuff?

Martin Deinhofer,
Alija Sabic
